OVERVIEW +

This list of technical requests is intended as a guideline. While many venues will have no trouble in meeting these requirements, we understand that others will and because of this please note that all requests are negotiable.

Because of the site-specific nature of our performances it is important to read this document carefully and contact us with questions about anything that is not completely clear or could present a potential problem. All details presented in this technical rider may seem constraining but they will guarantee a professional show.

PRICING GUIDE +

For a specific price for your event, please contact us with full details so that we can provide you with a detailed quote. As a guide, singular, bespoke feature acts start from £500 upwards.

TYPES OF PERFORMANCE +

Movementum creates bespoke shows for your themed event, festival, site specific commission or private party. Due to the versatility of both parkour and acrobatics, we are able to perform in unusual and surprising settings; we use the environment around us (think walls, rails, trees etc) which is more visually impactful than if we only have an empty stage to work on.

Standard Length of Performance:

Shows typically last between 3 – 10 minutes; we offer a completely tailored experience.

Movementum are able to perform up to three times in the course of an event.

Movementum are able to lead workshops during site rehearsals or after the performance itself, making the whole package interactive with the audience.

Movementum performances are suitable for:

- Indoor & Outdoor Live Events
- Corporate Parties
- Experiential Events
- Product Launches
- Site-Specific Events
- Festivals
- Immersive Events
- Commercials
- Music Videos

We can also provide anything from consulting to choreography, direction or production according to your needs and budget. Whatever your requirements we will translate your vision from conception and development to the final piece.

TECHNICAL INFORMATION

Due to the site-specific nature of our performances, please use the following as a guide:

1. The minimum performance space we require is 7m x 7m and the space must be available 2hrs before the performance starts. Minimum ceiling height is 5.5m.
2. The performance area, off-stage and backstage must swept, and clean (completely clear of debris, splinters, holes, wires, nails any other protrusions or objects that might cause injury). Movementum prefer all lighting and sound cables to be kept off the performance area; if this is not possible we require floor covering to cover these cables.
3. We will either need to be sent detailed information about the size of the performance area, including photographs and videos, or make a pre-production visit for location selection and planning. Movementum charge £150 per day for a pre-production visit plus travel and accommodation costs if necessary. This will be discussed and agreed upon in advance.
4. Movementum will need to arrive in advance of the performance day (for 1-3 days depending on the length and nature of the performance) for site-specific rehearsals. This will be discussed and agreed upon in advance.
5. We require travel costs, food on performance days and accommodation where necessary. If agreed beforehand, the client provides mutually approved accommodation for each night of performance plus the day of arrival.
6. If performances are weather-dependent, alternative arrangements should be discussed beforehand. If conditions are unsafe or weather conditions are too bad and no protection for open-air performances has been provided we can cancel the show with full payment.
7. The client is responsible for providing suitable equipment for performances. If equipment rental is required, please contact us to discuss options.
